

**THE NEW YORK TIMES HARDCOVER BESTSELLER
AND TIE-IN TO THE MAJOR MOTION PICTURE
WILL SOON BE AVAILABLE IN PAPERBACK**

Thomas Harris has written the most compelling psychological suspense of our time and all of his novels have been multimillion copy bestsellers. In *Dr. Hannibal Lecter*, he has gone beyond creating a master villain to present one of the most irresistibly brilliant and disturbing characters in all of literature. Now, in **HANNIBAL RISING**, readers will at last learn of Lecter's beginnings and will see the evolution of his evil.

"[HANNIBAL RISING] has ... a keen intelligence, a crime-heat reporter's attention to morbid detail and a fearless interest in abnormal psychology." — *Time.com*
