

Just as Daniel Goleman's *Emotional Intelligence* gave us a new way to understand being smart, John Bradshaw is offering us a new way to understand being good.

In his groundbreaking *New York Times* bestselling books and compelling public television specials, **John Bradshaw** transformed our understanding of the family and became a dominant figure in the field of addiction and recovery. Now he brings together a lifetime of experience and teaching to redefine virtue—how we learn it and live it—for our troubled times.

This first new book in ten years is for the millions of decent, caring people, who are appalled—as he is—by the greed and shamelessness that plague our society, and who long for guidance for themselves and their children in an increasingly complex world.

Bradshaw shows that each of us has what he calls an inborn *moral intelligence*, an inner guidance system that can lead us—if we know how to cultivate it in ourselves and others.

His fascinating discussion ranges from the ancient Greek philosophers to modern explorations of emotional development, from provocative historical insights to the recent discoveries of neuroscience. Why do so many attempts at moral education fail?

What emerges is a clear vision of a morality grounded in childhood, virtues, and culminating in ability to “do the right thing at the right time for the right reason.” **Reclaiming Virtue** is both an inspiring appeal to what Abraham Lincoln called “the better angels of our nature” and a wise guide to building a life of unshakable integrity and well-being.

Almost 2 Million Copies in Print
Homecoming, Family Secrets, and Creating Love,
