The Black Swan,

Nassim Nicholas Taleb's instant *New York Times* bestseller

A groundbreaking look at the role played by the unexpected in life and history, and a fascinating examination of why we know less than we think we do—and what to do about it.

A "Black Swan" is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random, and more predictable, than it was. The astonishing success of Google was a black swan; so was 9/11. For **Nassim Nicholas Taleb**, black swans underlie almost everything about our world, from the rise of religions to events in our own personal lives.

Nassim Nicholas Taleb's bestseller is also available in paperback

Fooled by Randomness:
The Hidden Role of Chance in Life and in the Markets, is the word-of-mouth sensation that will change the way you think about the markets and the world.
